## Why Two Camera's?

The advantage of having two of us is that we can film the bride arriving whilst the groom waits at the alter and two angles throughout the ceremony and speeches. We also capture shots of the wedding breakfast room whilst you are having your photoshoot and drinks reception. We can record all the detail that you have spent months planning.

## Kind words from our customers?

*"My wife and I met Carol at a wedding fair and without even watching a video of her work, had a relaxed and engaging conversation. It was clear Carol deeply cared about her craft and the importance of understanding our vision for the most special day of our lives. Carol and her wonderful team were attentive and a pleasure to work with throughout the planning and the day itself. The results were every bit the dream film we wished for, capturing emotions that we could treasure and relive forever! Thank you very much" Mimi & Chris May 19*

*"When we started planning our wedding we thought a wedding film was an expensive extra. Having now received our film I would give up many other things to be able to have such wonderful memories. Not only did they capture moments that we missed but they captured people that meant a lot to us and now I have that on film. This is invaluable and worth every penny. The editing and the way the film is put together is amazing – so thoughtful and captures all the finer details that I spent so long organising. Receiving the film brought all the memories back – what a wonderful thing to treasure for the rest of our lives. Don't hesitate to get in touch with Carol, she is friendly, approachable and discreet. I will be advising all my friends to use Cut Above Productions" Natalie Larner Nov 19*
